1. 5.1(c) in textbook.
2. 5.3 in textbook.
3. 6.17 in textbook.
4. 6.23 in textbook.
5. 6.37 in textbook.
6. What is the schedulable utilization of the Least Remaining Execution Time First scheduling algorithm (i.e. preemptive version of the Shortest-Job-First scheduling algorithm). Give a Proof!
7. Give a formula for the schedulable utilization of RM for task sets with a given period ratio $\delta$.
